

ESAB Cobot

Hirebotics

Meet Cobot Welder. The first and only cobot welding system developed with your welders in mind. Your skilled welders do not need to be robot programmers to be more productive. Cobot Welder utilizes a purpose built interface for welding that utilizes familiar technology to all welders - smart phones and web browsers. It's the easiest to use weld system available. Industrial-grade robot welding with consumer-level ease-of-use at a phenomenal price point!

The Cobot Welder is built on industry proven, standard equipment: Universal Robots UR10e; Miller's cobot welding package which includes the Invision 352 and S74 wirefeeder; Tregaskiss Tough Gun welding torch; Siegmund welding table (32" x 48"; 5/8" holes on 2" centers); and Hirebotics' welding software.

Typical lead time of 2 weeks and a 30 day return policy.

Features

- Easy-to-use app-based software for parts programming, analytics for increased repeatability and uptime, and productivity that can be viewed anytime, anywhere.
- Remote support inside the app, providing answers and information in a matter of minutes.
- Advanced pulse functionality that reduces heat input and minimizes spatter, so there's less rework and more time and cost savings.
- No robot operation/programming experience required.
- Playlist/Part storage for quick and easy recall.

Specifications:

- **Include a urcap**

Yes - Beacon by Hirebotics

- **Software version required**

Polyscope 5.10

- **Dependencies**

Power, shielding gas, wire.

- **Certifications and standards**

N/A

- **Dimensions**

Welding table is 32" x 48" with 5/8" holes on 2" centers.

- **What's in the box?**

Includes UR10e

Tregaskiss Tough Gun welding torch

Hirebotics' smart puck

Siegmund welding table

ESAB Cobot Aristo series

- **License type**

One-time purchase
